

**The collaboration hub by RENATER
for the Education and Research community.**

Do you want to improve communications and simplify your day-to-day work?

Much more than just an email client, our collaboration hub will streamline your communications and improve your workflow thanks to the host of collaborative features it adds to your inbox.

▶ Send and receive secure emails:

Our online collaborative mail system makes it easy to organize and deal with your emails wherever you are.

▶ Manage your appointments:

A powerful electronic calendar that can be shared with others, where you can easily schedule meetings and appointments.

▶ Manage your address book:

Effortlessly create new contacts, manage and share your address book.

▶ Manage your tasks and receive alerts:

Create to-do lists, set up reminders and share your to-do lists with other users.

ADDITIONAL FEATURES:

Sync your email and calendar with your smartphones and tablets

Access your emails, calendar and contacts from your smartphone or tablet using the sync option.

Store and share your documents

With the integrated document sharing system, you can store, track versions, archive and share documents and files with other users.

Send instant messages:

Communicate easily and save time by dialoguing in real time with PARTAGE users.

Easy access to other collaborative services of the Education and Research Community: from the webmail interface, you can access or use services such as RENAvision, Rendez-Vous, FileSender, etc.

DID YOU KNOW?

- All your data are stored on sovereign servers in France, at RENATER (National networking service for the Education and Research community).
- Nearly 400,000 users and 60 institutions use our collaboration hub
- Nearly 30 million messages sent per year
